DIRECTIONS FOR USE:

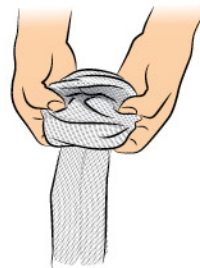

1 Cleanse the open wound with Anasept® Antimicrobial Skin and Wound Cleanser.

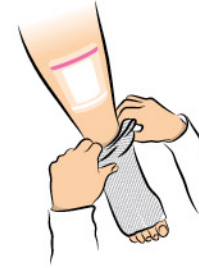

2 Apply Anasept® Antimicrobial Skin and Wound Gel to wound bed.

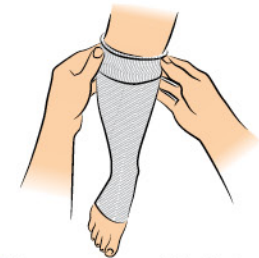

3 Cover wound with sterile dressing.

4 Roll the Staytex™ tubular dressing up on your hands like you would a stocking before putting it on, and cut to needed length.

5 Place Staytex™ over the foot until toes are exposed then unroll the rolled end up the length of the leg.

6 To prevent Staytex™ tubular dressing from rolling down or up on the limb, turn down the top of Staytex™ making a three inch cuff.
